

To whom it may concern

Re Invicta Storage Systems Limited

Scottish Healthcare Supplies have recently awarded business to Invicta Storage Systems for the supply and installation of storage for the Medical Records Department at the new Queen Elizabeth Hospital in Woolwich.

To date all work for this project has been carried out in a timely fashion and to the customers satisfaction. In our dealings with Invicta we have found all of their staff to be most helpful when providing information and handling queries of both a technical and commercial nature. We believe in selecting Invicta for this project we have chosen an organization who are providing best value for money without compromising quality.

Scottish Healthcare Supplies are currently considering Invicta for further requirements related to the Queen Elizabeth Hospital.
